

BUILDERS YOU SHOULD KNOW

Discover why these builders should be considered when building a new — or renovating an existing — home.

ALISBERG PARKER ARCHITECTS

Alisberg Parker Architects offers design-build services as a complement to their award-winning architectural services.

Their team brings extensive experience building top quality projects, offering clients seamless integration of design and construction, cost savings and a single point of accountability.

DAVENPORT CONTRACTING, INC.

From cottages to estates, Davenport Contracting has been “delighting their customers” for more than 35 years with individualized attention to every project. The Davenport team provides a suite of services including pre-construction estimating and budgets, fixed bid and construction management. A collaborative environment includes the client, architect, interior designer and Davenport crew.

Davenport Home (203.324.3030) is a separate division that remodels, maintains and services existing clients as well as the general residential community.
